

DESCRITORES DA ÁREA TEMÁTICA 1 - CARACTERIZAÇÃO MOLECULAR E BIOLÓGICA

Coordenador: Prof. José Luiz Modena (IB)

Estratégia de busca 01 Descritor principal: Zika Virus Combinações possíveis:	Estratégia de busca 02 Descritor principal: ZIKV Combinações possíveis:	Estratégia de busca 03 Descritor principal: Aedes aegypti Combinações possíveis:	Estratégia de busca 04 Descritor principal: Chikungunya Virus Combinações possíveis:	Estratégia de busca 05 Descritor principal: Guillain-Barre Syndrome Combinações possíveis:
Zika virus and Phylogenesis	ZIKV and Phylogenesis	Aedes aegypti and Phylogenesis	Chikungunya Virus and Phylogenesis	Guillain-Barre Syndrome and Phylogenesis
Zika virus and Biochemistry	ZIKV and Biochemistry	Aedes aegypti and Biochemistry	Chikungunya Virus and Biochemistry	Guillain-Barre Syndrome and Biochemistry
Zika virus and Biosynthesis	ZIKV and Biosynthesis;	Aedes aegypti and Biosynthesis	Chikungunya Virus and Biosynthesis	Guillain-Barre Syndrome and Biosynthesis
Zika virus and Proteins	ZIKV and Proteins	Aedes aegypti and Proteins	Chikungunya Virus and Proteins	Guillain-Barre Syndrome and Proteins
Zika virus and Proteome	ZIKV and Proteome	Aedes aegypti and Proteome	Chikungunya Virus and Proteome	Guillain-Barre Syndrome and Proteome
Zika virus and Protein synthesis	ZIKV and Protein synthesis	Aedes aegypti and Protein synthesis	Chikungunya Virus and Protein synthesis	Guillain-Barre Syndrome and Protein synthesis
Zika virus and DNA	ZIKV and DNA	Aedes aegypti and DNA	Chikungunya Virus and DNA	Guillain-Barre Syndrome and DNA
Zika virus and RNA	ZIKV and RNA	Aedes aegypti and RNA	Chikungunya Virus and RNA	Guillain-Barre Syndrome and RNA
Zika virus and Genome	ZIKV and Genome	Aedes aegypti and Genome	Chikungunya Virus and Genome	Guillain-Barre Syndrome and Genome
Zika virus and Cell	ZIKV and Cell	Aedes aegypti and Cell	Chikungunya Virus and Cell	Guillain-Barre Syndrome and Cell
Zika virus and Cytopathology	ZIKV and Cytopathology	Aedes aegypti and Cytopathology	Chikungunya Virus and Cytopathology	Guillain-Barre Syndrome and Cytopathology
Zika virus and Arbovirus	ZIKV and Arbovirus	Aedes aegypti and Arbovirus	Chikungunya Virus and Arbovirus	Guillain-Barre Syndrome and Arbovirus
Zika virus and Flaviviridae	ZIKV and Flaviviridae	Aedes aegypti and Flaviviridae	Chikungunya Virus and Flaviviridae	Guillain-Barre Syndrome and Flaviviridae
Zika virus and Pathogenesis	ZIKV and Pathogenesis	Aedes aegypti and Pathogenesis	Chikungunya Virus and Pathogenesis	Guillain-Barre Syndrome and Pathogenesis
Zika virus and Neurovirulence	ZIKV and Neurovirulence	Aedes aegypti and Neurovirulence	Chikungunya Virus and Neurovirulence	Guillain-Barre Syndrome and Neurovirulence
Zika virus and Immune response	ZIKV and Immune response	Aedes aegypti and Immune response	Chikungunya Virus and Immune response	Guillain-Barre Syndrome and Immune response
Zika virus and Molecular Structure	ZIKV and Molecular Structure	Aedes aegypti and Molecular Structure	Chikungunya Virus and Molecular Structure	Guillain-Barre Syndrome and Molecular Structure
Zika virus and Antigenic variation	ZIKV and Antigenic variation	Aedes aegypti and Antigenic variation	Chikungunya Virus and Antigenic variation	Guillain-Barre Syndrome and Antigenic variation
